Name of the register

Härmälän Isäntä, customer register
The register also covers websites operated by the register holder.

The purpose of the register

Customer information is used for accommodation reservations, billing, and marketing. The registration information may be in the reservation system (Bókun), billing system (Stripe) and / or newsletter delivery system.

The register may include some of the following information from customers

- name
- telephone number
- address
- e-mail
- nationality
- information about accommodation
- invoiced services

Additionally, business contacts may include some of the following information:

- name
- telephone number
- e-mail
- position in the company

Sources of information

The customer information can be obtained from the customer at the time of booking at the company's premises, by telephone or by e-mail, through the booking system or by subscribing to the newsletter. In addition to business information, public contact information on corporate websites and public business registers.

The use of the register

Personal information contained in the customer register will be used for customer relationship management, billing and marketing, if the customer has given it permission.

Disclosure of information

The information may be disclosed and transferred to the registry administrator or its subcontractors, subject to the limits set by the Personal Data Act and the EU Data Protection Regulation, as well as the authorities in statutory cases and any possible acquisition. Data will not be transmitted outside the EU or EEA, but should such a need be implemented under the terms of the EU Privacy Regulation.

Storing the register

The customer archive records are stored in Finland or in any other European network server or service. The customer register information or parts thereof are only available to staff performing a task requiring that registry or system to be used. The registration information may also be technically visible to the technical support of the system administrator, but the support always works as a controller and handles the information confidentially and only on behalf of the registrar.

Right of inspection

The user has the right, upon request, to check the information that is stored in the register or in the registers. To check other information, the user must contact the registrar.

Correction of information

The registrar rectifies, removes, or supplements any unauthorized, unnecessary, defective or obsolete personal data contained in the register for the purpose of processing on its own initiative or at the request of a registered person. The customer can update his / her own data in the reservation system, otherwise, the data subject must contact the person responsible for the registry for the registry to correct the information.

Prohibition right

The customer has the right to delete the information from the customer register by sending the removal request by e-mail or by sending the signed request to the registrar's address. The customer may also deny direct marketing.

Notification obligation

The controller shall inform the supervisory authority of the security breaches of personal data within 72 hours. If the breach is likely to have an adverse effect on the data subject, the registrar must also notify the registrar of the incident.

Cookies used at this website

The company's website also has cookie files that identify a user's browser and thus allow different site functionality for the site user. The site allows also third-party cookie files, that is, in practice –Google Analytics for visitor tracking, which uses cookies to measure traffic to this site and Booking engine cookies to allow and manage booking and shopping cart functions. Additionally, social media add-ons that are available on the site can use cookie files to target add-ons or advertisements on the site, such as Facebook Pixel or Google AdWords. Cookie files are automatically handled by the registry administrator in the site publishing system and the registrar cannot identify the individual user on the site.

A user of the site may choose to block cookies in their own Internet browser, but at that time we cannot ensure that the site's functionality is available to the user. The user can clear the cookie files themselves from their browser, according to the Internet browser's instructions. For third-party cookies, some service providers offer applications which can prevent the use of cookies.

When the user accepts the use of cookies on this site, the cookie will last for 30 days, after which the user will receive a new question.
